Subject: Supply to my door documentation and handover

Delivery project parts under-pinned with Gantt chart, & agile documentation to increase value of project and transparency for future troubleshooting. Timing/number of days depends on Zen partnership.

STMD project management of handover, with

Project checklist with gantt chart

Use case and user manual, including trouble shooting

Complete SDLC documentation and commenting of code

Future support, Extensibility and scalability

Signed off handover of 3 parts ie front end, service, ecommerce, except Mobile app, because i haven't seen any part of it or spec yet.

Estimated to last 3 to 4 days, depending on Zen partnership forthcoming with information.

NOTE: My acquaintance with the STMD project is enabling me to do two billable tasks at once, ie writing the documentation to match design tested functionality (HANDOVER)

If the work extends beyond 3 days then per day billing continues.
