Quote # 9/2018 issued on 10-09-2018	**Big Agenda**
	Lagos (Lagos) VAT code: na Fiscal code: na Reference: bigagenda

Subject: Big Agenda mgt software

The BIG AGENDA deliverable in this instance is wireframe and prototype software that out of the box present and runs the scenario cycle from end to end, and can be deployed for demo's. This is the **initial quote** to develop this one, as there could be many flavourings and permutations to enrich this software futher:

1. Primordial models
2. Requirements (Physical, virtual, hard and software, other)
3. Road map (end to end cycle)
4. wireframe and flow chart
5. prototype
6. The draw, online platform and promotion
7. offshoot potential business concepts
8. offshoot realtime value to market.
9. The competition and contest
10. Sponsorship model
11. Revenue model
12. The prize
13. Intelligence Monitoring
14. Data analytics

Code	Description	Quantity	Unit Price	Discount	Total
bigagenda_proto	Prototype software simulating end to end cycle with demo data for testing various scenarios for "near term" and "long term" opportunities. Comprising: Primordial models Requirements (Physical, virtual, hard and software, other) Road map (end to end cycle) wireframe and flow chart prototype The draw, online platform and promotion offshoot potential business concepts offshoot realtime value to market. The competition and contest Sponsorship model Revenue model The prize Intelligence Monitoring Data analytics	1	£ 2,000.00	25.00%	£ 1,500.00

Grand Total	£ 1,500.00

Conditions:

Notes:

This is a quote for producing the Wireframe and prototype of the BIG AGENDA. The process flow will be mapped out for clarity in the end to end cycle. The software's goal is to provide online platform and promotion to deploy it alongside and in some cases separate from physical gathering of contestants. The prototype flow chart will also highlight offshoot potential business concepts, not least so they don't distract from the big agenda while not undermining the offshoot realtime value to market.
